

What Is Virtual POS

Virtual POS is an integration that allows our customers to benefit from the Miracle Cash & More infrastructure. After completing the necessary technical work, it is possible to integrate our Miracle Pay payment solution into your shopping experience.

Our experts have published technical documentation that explains step-by-step how to integrate and use our crypto payment technology during your shopping journey. Integrating the Miracle Pay payment solution into your shopping experience provides your customers with a modern payment option that is secure, reliable, and user-friendly.
